

Exhibit "U."

Mr. W. W. Hobart, "our very efficient State Controller," publishes in the *Enterprise*, under date of January 1st, 1878, a statement which was no doubt labeled, Exhibit "I," and knowing that the same was probably calculated to make an erroneous impression, we have investigated and found ourselves correct. Some time ago the same subject was agitated by Senator Cassidy of the *Eureka Sentinel*, in attempted justification of his course upon the bullion tax. A sophistical array of figures was then presented, when we pricked the bubble and the subject was dropped. We believe Mr. Hobart is attempting the same sort of justification; and while not denying him the right to justify, it is still appropriate to examine the figures of our very efficient Controller. We shall, in this discussion, consider in a majority of cases only round numbers, and wherever Mr. Hobart has supplied figures we use them. Where he has not yet reported upon a necessary item the same is taken directly from Treasurer Schooling's book.

Mr. Hobart reports on hand January 1st, 1878, in General Fund, \$179,000, and proceeds to give us a balance of \$209,000 on January 1st, 1879. In order to do this the Controller takes the money in the building fund, which is devoted to special purposes; also all money to come into that fund in 1878. Besides this he adds liberal estimates of every income of the State during the year, and subtracting a very low estimate of the current expenses and extra session, is barely able to show \$209,000 in the general fund, January 1st, 1879. Now, passing for a moment the fact that the general fund will not have this amount, let us grant it to Mr. Hobart and figure what disposition he can make of it. The Legislature meets January 1st, '79, and we shall take the figures of '77, because there is not one reason why they should not be increased rather than diminished. Let us see, then—

Amt. in Gen. Fund, as per Hobart, \$209,000  
Expenses of Legislature, \$58,758 00  
Relief Bills, 40,000 00  
Exp. of State order in Jan. and Feb., 41,666 00  
Total, \$349,424 00  
Bal. in Gen. Fund Mar. 1st, '79, \$ 88,578  
Now, be it remembered that this sum must run the State for the remaining four months before the June settlement. According to Hobart that expense would be over \$80,000, thus leaving a deficiency of over \$40,000 in June. Now leave out of sight this deficiency already reached in June, and remember that the policy of our tax law is that at each semi-yearly settlement the balance together with receipts should be enough to run the State until the next settlement. Now, at 40 cents on \$100 the utmost sum which can be realized at the June settlement for general purposes would be \$30,000, but our very efficient Controller says that it costs us \$125,000 to run six months. Here, then, is another deficiency of \$95,000, not to speak of the already left behind. We have accepted Mr. Hobart's own figures as to his 40-cent tax income, and used generously items of expense which can be verified upon the Treasurer's books. It is not necessary to show exactly how much Mr. Hobart would be in debt in 1880—a deficiency being proven.

And now to look at the general proposition of 40 cents on \$100, as proposed by his efficiency in justification of an extra session, and remember that the rate must hold for at least two years. We give Mr. Hobart, in the following statement, the benefits coming from the use of round numbers:

Assessed value of real and personal property, \$30,000,000  
Proceeds of mines subject to tax, 25,000,000  
Total, 55,000,000  
Tax this at the rate of 40 cents, 22,000,000  
Add Hobart's generous prison income, 26,000  
Licenses, 30,000  
Poll taxes, 30,000  
Add miscellaneous, 15,000  
Total, \$81,000  
Now, let us say that every cent of this is collected, and multiply by 2 to show two years' income, and we get \$642,000. The actual expenses of the State for '76 and '77, taken from Controller's report and Treasurer's books, was \$1,089,151. Had Mr. Hobart's reduction obtained during those years, the State would have been in debt \$487,000. Again: According to the report carefully prepared in detail and

submitted to the Legislature and people of this State, by Mr. Hobart, in 1877, estimated our expenses for '77 and '78 as follows:  
Receipts from all sources @ 90c, \$311,210  
Expenses, 264,350  
Balance in all funds Jan. '79, \$18,960  
It would seem that pending the Compromise Bill in 1877 Mr. Hobart found an easy task in proving reduction impossible, because experience bore him out. Taking now again his estimate of \$311,210, subtract highest income at 40 cents—\$642,000—and a most efficient deficiency—\$369,210—would intimidate us in 1879. It would seem that now, pending the call of conventions, Mr. Hobart finds a reduction very feasible and necessary. It is not necessary for us to say that the payment of delinquent taxes cannot affect the rate, because this is determined by considering all taxable property in the State. This amount or the expense must change before the rate can be modified.

Having seen that Mr. Hobart's estimate would bring us out \$400,000 in debt in two years, let us see how the General Fund has prospered, and what we can do with Mr. Hobart's enormous surplus of \$16,000, (report of 1877, before quoted), which now swells suddenly into Boazna proportions:

Page 56, Hobart's report for year 1876, balance in General Fund, \$132,950. There was, besides, due this Fund from mining tax for two quarters in '76 \$88,000, making a total of \$220,950. Now in Gen. Fund (Hobart) \$179,000, thus showing an actual decrease in fund of \$41,950 during the year '77, with the tax at 90 cents. The same decrease is also true of each year since the tax was reduced. Let us see now how the fund has been made to present such a fair appearance to Mr. Hobart and the outside world. According to same report, Jan. 1st, 1877, there was in the general fund, \$132,950. The legislative and relief bills amounted to \$130,000, leaving \$2,950 to run the State for six months. The Legislature took from the building fund \$66,515, a sum which was set apart for a special purpose, and this too, was eaten up before May. Then came the \$88,000 back taxes before mentioned, and that went also, besides which the general fund has borrowed, without leave or license, \$120,000, "in order to maintain its credit." It can be said with the greatest safety, that since May 1st, 1877, the general fund of this State has not been solvent. It is to be expected that we should have money now, the yearly settlement has just been made and we ought to have money for current expenses, but any assertion in regard to a considerable surplus, is either woefully wrong, or deceitful in its design. It is hardly necessary for us to argue this matter having submitted the figures, but we will notice in passing the points made. We have shown that Mr. Hobart proposes to absorb the Building Fund for general purposes. We have taken his own figures, report of 1877 to show that Jan. '79 will make a balance only of \$16,960 in the Treasury at 90 cents. We have proven that at 40 cents, the rate would after two years have to increase above 90 to cover a large deficiency. We have seen Mr. Hobart trying to prove, what his own figures have disproved, and aiming to encourage the present bullion producing mines at the inevitable expense of those which are to come. If the rate were now reduced it would benefit the Comstock, and in two years the large increase which would be necessary would oppress and stifle every new mining camp which began the production of bullion. What was the motive of this Exhibit "I" by Mr. Hobart, and what induced its acceptance upon every hand? Mr. Hobart has seen fit to change from an opponent to a violent advocate of the Compromise, and we ask him if this exhibit is the best which he can offer in justification. He knows that at the present rate the State has barely enough revenue, then why ask taxpayers, at an expense of \$60,000, to reduce the levy over one-half? Can they not borrow the money on better terms as private individuals? These are questions which Mr. Hobart must answer, if he wants to be Governor of this State, and he had better call an extra session of his reasoning faculties to account for them. We want a most consistent as well as "most efficient" Republican for Governor, and while W. W. Hobart is, according to the *Enterprise*, "our most efficient State Controller," with Exhibit "I" in hand, he is not our ideal of a most efficient candidate. Our cotemporaries would do well to vindicate their own positions by learning and publishing the truth of our statement.

Chandler's famous letter has been issued in pamphlet form and is being circulated through the country. It is reported, also, that Conkling will make it the pretext for "investigating" the President. The general impression is that Chandler's letter and Conkling's investigation will result in making Mr. Hayes more popular than ever.

The union service at the Methodist Church to-night will be introduced by a short sermon from Rev. S. Monroe Hubbard, a Baptist minister from Sierra Valley. Subject, "The Imperative Command."

The Chesapeake & Ohio railroad, which is soon to be sold, has \$38,000,000 of bonds outstanding and \$15,000,000 in stock. The company owns 400 miles of road, 77 locomotives and more than 2,000 cars.

A telephone six miles in length is in operation between Little York and Liberty Hill, Placer County California. It is said to work to perfection.

## LOCAL AFFAIRS.

## Lyceum Meeting.

Last evening the attendance at the regular meeting of the Congressional Lyceum was larger than usual; an excellent feature being that a number of ladies were present. We like to see this as it stimulates a better attendance in general, and causes the members to prepare themselves more thoroughly on the questions arising for discussion.

Under the head of reports from Committees, Mr. J. B. Williams, Chairman of the Committee on Ways and Means, made the following interesting report on the subjoined resolution of Mr. Davis:

**Resolved**—That the Committee on Ways and Means be, and hereby is, instructed to ascertain what legislation is necessary to keep Washoe county on a cash basis, and report to this House by bill or otherwise.

**MR. SPEAKER:** Your Committee on Ways and Means respectfully beg leave to report upon the resolution offered by Mr. Davis, as follows:

The claims allowed against Washoe county during the year 1877 amounted to nearly \$68,000, against a revenue of about \$50,000, but if a law should be enacted by which litigants would be obliged to pay all the expenses of jurors summoned in civil cases, the average expenses of the county would not exceed \$60,000 per annum.

The valuation by the Assessor of the taxable property of the county in 1877 was a little more than \$3,500,000. To this add the valuation of new property in 1878, estimated at \$150,000; increase the valuation on 78 miles of railroad from \$9,000 to \$12,000 per mile, \$234,000; increase the valuation on the other property of the county, \$116,000, and the total valuation will be \$4,000,000. On this valuation a percentage of \$1.40 per \$100 will give \$56,000; add proceeds of county licenses, \$9,000, school moneys to be received from the State for 1878, say \$4,500, making a total of \$69,500.

The county rate of taxation for 1877 was 90 cents on every \$100, and the rate for State purposes was also 90 cents, and by law is fixed at 90 cents for the year 1878.

**MR. HOBART,** our State Controller, has declared that a levy of 40 cents on every \$100 will amply suffice for State purposes, and he recommends the calling of an extra session of the Legislature to reduce the levy to 40 cents. Should an extra session be called and the reduction of 50 cents be made, such reduction, added to our present county rate, will give us the required \$1.40 for county purposes, and with 50 cents only for State purposes, will make our total rate for 1878 \$1.90, as in 1877, and Washoe county would be substantially on a cash basis.

Respectfully submitted,  
J. B. WILLIAMS, Chairman.

**Rev. Wm. Lucas,** Chairman of the Committee on Education reported on a bill to divide the Reno School District. The committee reported adverse to a division of the School District, at this time but reported the following resolution. Resolved, that an appropriation of \$4,000 be, and is hereby made for the purpose of erecting a suitable school building in the town of Reno in some eligible location to accommodate those scholars belonging to the Primary department. The question of the evening was then called, viz., that this body approve the civil service policy of President Hayes. It seemed from the silence which followed that the Lyceum approved Hayes' policy, and Mr. Hatch so held it to be the sense of the members. But Mr. Hutchins, in a brief speech assailed the action of the President in reference to his appointments in New York, San Francisco, Baltimore and New Orleans. Mr. Fulton endorsed Hayes' policy in a neat, spicy and well written speech. He showed that it was a mistake that office holders had lost any real privileges, and were now compelled to attend to their official duties instead of being the chief wire-pullers in political conventions.

Mr. Cossitt, who introduced the resolution, took the floor and made a fine speech. He quoted from the best authorities to prove the wisdom of the course now pursued by the President, set forth his arguments in a clear and logical manner, and closed by passing a most fitting and eloquent eulogy on the acts and character of the Chief Executive. The same question will be discussed at the next meeting of the Lyceum, Tuesday, Jan. 15th. The bill for the increase of the Army to 50,000 men will also be presented for consideration.

## The Rover Case Again.

What One of the Counsel for Defendant Has to Say About It.

**EDITOR SILVER STATE:**—In your issue of yesterday in regard to Rover having recently received a letter from Truckee relative to McWorthy being run out of Alpha, etc., you say "a similar letter was received by Rover from Truckee over two years ago, but no attempt was made to introduce it in evidence at the trial, a fact which convinced those who saw the letter that there was no foundation for the assertion. It was proved in Court here that McWorthy and Sharp had been acquainted over twenty years." It is due to Rover who now is about to have an insight to the "blood atonement," to say that Mr. Rover's counsel proposed not only to introduce in evidence a great number of letters, but to prove by McWorthy himself on cross examination, that he had been charged with almost every crime in various parts of the country, from British Columbia to San Diego, ranging from murder to obtaining money under false pretenses, but upon earnest objections of his attorney, all were ruled out. M. S. BONNIFIELD.

**TOY CANNON ACCIDENT.**—Frank Hoffman, 14-year-old son of our citizen F. Hoffman, met with a severe accident New Year's Day, from a toy cannon he was playing with. He loaded it with a piece of lead, and afterwards laid on the muzzle a marble of about half an inch in diameter, then touched it off. By some accident it was fired almost directly in his face, the marble being forced into one of his eye-sockets, where it buried itself under the skin and was afterwards pressed out. The eye itself is badly injured and may be lost. The piece of lead gave him a close call, going through his hat but fortunately missed his skull.—St. Helena Star.

Twelve patients complain of good treatment at the County Hospital. Does it ever occur that there is any imposition ever practiced upon the good people of this county by caring for some few who properly should not be cared for by the county. Good nature is not to be condemned, but square business for the county must ever be had in view by its officers.

**FOR GOVERNOR.**—We are authorized to state that Hon. D. P. Walter of Hot Creek, Nye county, will present his claims before the Democratic State Convention as a candidate for Governor of Nevada. Mr. Walter has had considerable legislative experience and would no doubt make a first-rate presiding officer. Belmont Courier.

# A Natural Reminiscence.

Mysterious Loss of the "Juventa" and Her Crew.

Leitering about the wharves on a dull day one encounters occasional groups collected in pensive mood, and if he cares to investigate the subject of discussion, he is more than likely to learn something new and strange in the way of nautical lore, or be interested with the recital of thrilling marine reminiscences. Such a salt-sea savored group was encountered by a Chronicle reporter yesterday. Captain E. A. Williams, a well-known veteran mariner, had just commenced the recital of a sorrowful narrative. "It is about four years ago," said the Captain, "that the schooner Juventa sailed from the Amoor River bound for San Francisco. Her arrival here was looked for with great eagerness, as the schooner was very popular, and her commander, Captain Hall, was an old favorite. You know with us sailors how vessels are spoken of as having life, and being launched under lucky or unlucky stars. Well, we all thought the Juventa was born under a lucky star up to the day when we finally believed a disaster had befallen her. We waited and waited for her arrival, day by day and night by night, for six months, but no Juventa came, and

SHE HAS NEVER BEEN HEARD OF here from the day some four years ago, when Captain Hall sang out the command, "Let go the lines!" in the regions bordering on the Arctic. The theory is that the schooner struck floating ice and foundered, or else struck sunken rocks, when she perished with all on board. Those who went down with her were Captain Hall, a fine young fellow named Goodrum, son of Capt. Goodrum of this city; two mates, four men before the mast, and the cook, as near as I can remember. I sailed the Juventa myself, and she made her fourteen knots an hour under a good stiff breeze. I never saw the pilot-boat that could speak her if her Master gave her all the canvas she could carry and handled her properly. Running before a good gale, there was not a steamer on the Pacific Ocean that could sail away from her. The Juventa was built at Coos Bay, Oregon, by John Howlett, and was about 160 tons. Never saw anything like her effort for making time in all kinds of winds and all kinds of weather. But the saddest part is to be told. Poor Captain Hall had not seen his family in fourteen years, and had written to

HIS WIFE AND A BEAUTIFUL DAUGHTER, sixteen years old, to come to San Francisco and meet him upon his return here from the Amoor River, fixing the probable date of his arrival. The mother and daughter came from the East at the appointed time, with hearts full of love for the kind protector whom they had not seen for so many years. Letters and favors had passed between them, but they never had met face to face in all that time. Both mother and daughter, upon their arrival in this city, expected to meet Captain Hall, but they were doomed to disappointment. For six months they waited, never allowing a day to pass without inquiring if the Juventa had arrived yet. Every day the reply was, "No; but we expect her tomorrow, sure. And the morning passed and continued to pass until six months had gone by. At the expiration of that time both mother and daughter were worn out with weary waiting, were heart-broken with grief. Friends advised them that it was useless to wait any longer, as the vessel must have foundered at sea. They went East in their desolation, and from that day to this nothing has ever been heard by either of them of the ill-fated schooner Juventa."—S. F. Chronicle.

And in accordance with law and an order of the Board of Trustees, made on the 11th day of October, 1877, so many shares of each parcel of such stock as may be necessary will be sold at the door of the Court House, Reno, Nevada, on Thursday, the 6th day of December, 1877, at 1 o'clock P. M., to pay said delinquent assessment, together with costs of advertising and expenses of sale.

JNO. S. BOWKER, Secretary.

Reno, Nov. 16, 1877.

At a meeting of the Board of Trustees held on Thursday, December 6th, 1877, the above notice was postponed until Tuesday, January 8th, 1878, at the same hour and place.

JNO. S. BOWKER, Secretary.

Reno, Dec. 7th, 1877.

# SUMMONS.

IN THE DISTRICT COURT OF THE Second Judicial District of the State of Nevada, in and for the county of Washoe, County, Nevada.

Notice is hereby given to all persons who are indebted to J. S. Bowker, as plaintiff in an action commenced against you as defendant by J. S. Bowker, as plaintiff in the District Court of the Second Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons, or in default thereof you will be liable for the payment of the same, or twenty days after the date of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover the possession of all these certain parcels of land situate in the county of Washoe, State of Nevada, known and described as lots 7 and 8 in block 9 of Evans' North Addition to the town of Reno, county and State aforesaid, together with the building and appurtenances thereon, of which he alleges he was owner and entitled to the possession on the 11th day of November, 1876, and of which you ousted him and ever since withheld to him damage, in thus withholding, in the sum of \$200, and also to recover the rents and profits thereon in the sum of \$300.00 of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court of the Second Judicial District, and you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded in said complaint.

In testimony whereof, I, P. B. Comstock, do hereby certify the contents of this summons, and affixed the seal of said court, this 23rd day of January, A. D. 1878.

P. B. COMSTOCK, Clerk.

# WATCHES!! JEWELRY!!

ROMAINE GOLD.

So extensively worn in Paris, the celebrated French chemist, Mons. D. De Daigne, who manufactured it into jewelry, and for five years sold it to the leading jewellers of Paris for Solid Gold. In 1870, when his secret became known, ten of the manufacturing jewellers established a stock company, with a capital of \$100,000 for the purpose of manufacturing Romaine Gold Jewelry and Watches. With this immense capital and the aid of improved machinery, they are enabled to produce all the latest patterns of jewelry at less than one-tenth the cost of solid gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.

We have secured the exclusive agency of the United States and Canada, for the sale of all goods manufactured from this metal, and in order to introduce them in the most speedy manner, have put up assorted sample lots as given below, which we will sell at one-tenth the retail value until January 1st, 1878. Read the list.
